

EPAT

Extracorporeal Pulse Activation Treatment (EPAT) is the most advanced and highly effective non-invasive treatment method cleared by the FDA. This proprietary technology is based on a unique set of pressure waves that stimulate the metabolism, enhance blood circulation and accelerate the healing process. Damaged tissue gradually regenerates and eventually heals.

Don't let muscle and tendon pain slow you down.

Treatment Package Cost

Three Treatments are Included in a Package

(The recommended number of treatments for best results)

\$500 one site

\$250 ea additional site
