

At Prairie Path Foot & Ankle Clinic, we always recommend Custom Orthotics. However, we understand that these are not right for every patient in every circumstance.

Therefore, we also carry our line of Medical Grade Inserts. Shown here, these Inserts are much better than you will find online or at your local pharmacy. We have examples, out of the box in our front waiting area for you to check out before you purchase. We have men's, women's and a limited supply of children's sizes. We also have both sport and dress styles (shown here).
